THE AUSTRALIAN WEEDS CONFERENCE

is the premier learning, training and networking event on the weed calendar. Weed managers of all persuasions will be attending, including farmers, scientists, advisors, rangers, consultants, policy analysts, noxious weed officers, students, and industry and community group representatives.

Registrations are now open for the 15th Australian Weeds Conference, being held in Adelaide this September. With over 300 abstracts submitted from Australia, New Zealand and around the world, it promises to be a comprehensive and diverse meeting.

Invited keynote speakers include:

- Professor Hal Mooney, Stanford University, USA
- Dr Bob Blackshaw, Agriculture and Agri-Food Canada
- Professor Dave Richardson, University of Stellenbosch, South Africa

Special symposia on:

- climate change
- international advances in crop weed management
- achieving social and policy change in weed management
- animal dispersal and use of weeds

Plus:

- poster and paper sessions on herbicide resistance, environmental weeds, biological control, weeds and mines, aquatic weeds, crop weeds, pasture weeds, regional weed management, weed risk assessment and community participation.
- a choice of four field trips examining agricultural and environmental weed issues in the greater Adelaide region.

To register go to the conference website
www.plevin.com.au/15AWC2006

Important dates:

- Early bird registration rates end 1 July 2006 (All presenters must be registered by this date)
- Standard rates end 1 September 2006
- Late rates apply after 1 September 2006
